Bananas 2 Bananas | banana2banana.herokuapp.com/ | github.com/mqsmith/banans2bananas
Description: Allows the user to compare products at different stores to find the cheapest price.
Technologies used: MySQL, NodeJS, HTML, MaterializeCSS, JavaScript, jQuery
Dependencies include: sequelize, express, path, dotenv, nodemon, mysql2

Experience

Automatic Data Processing (ADP)   **2019 to Present**
Associate Application Developer
> Create, maintain, and deploy multiple Microservices within ADP on-prem infrastructure and to AWS Cloud. The majority of these applications are written in TypeScript, JavaScript, and D3 with a java backend, while following AGILE and SCRUM methodologies. The resulting products help clients all over the world bring innovative HR processes to their employee populations.

Passion Productions   **2015 to 2019**
Technical Director
> Led all production aspects, e.g., technology, gear, and team leadership, for the Cumberland location and enterprise events including implementing the vision and culture of Passion City Church within the production team. Ensured internal and external client satisfaction by building relationships, gaining trust and requesting feedback. Launched a new location and set the groundwork for future teams to step into. Cultivated a consistent rotation of volunteers through leadership and motivation, solving a year-long issue for the company. Successfully managed a yearly budget of $900,000

Technical Coordinator
> Led multiple teams of production contractors to execute events with audio, lighting, video, and performances by managing pre-planning calls, gear rental, and other event preparation.

Freelance Live Event Production   **2009 to 2015**
Production Technician
> Served as Producer, Programming Director, Lighting Director, and Lighting Designer. Scheduled and trained volunteer teams on proper implementation and storage of production equipment. Managed and archived all production data.
